

## Recycle Yard Signs the Right Way

Your politics don't matter in a landfill, but your plastic does. Did you know your yard signs end up in a landfill, even when your garbage company takes them?

We've got a better way. Drop off your yard signs and we'll take them to a responsible recycler.

Politics can be trashy enough. Let's put yard sign plastic where it belongs.

Drop off by April 19 in the bin inside Indian Prairie Public Library (in Darien). All political signs are welcome.
