Mrs. Christine Marcinkewicz

School Principal & District Director of Technology

April 2022

Dear 4th Grade Parent,

As the fourth quarter begins, we are already looking forward to the new school year and the next chapter in your child's education. With this thought in mind, we are sending this letter to inform you about the process to identify high math students for Cass Junior High School. Identification for this class is determined according to a matrix of components: standardized math achievement scores and teacher/parent evaluation. Qualification for this class is based on data compiled from multiple sources.

The purpose of this class is to challenge those students who have shown great promise in their foundational math classes. The class provides students with a program that is diverse, interesting and complex in order to enhance their abilities. The class is designed with the gifted student in mind, with critical thinking skills and problem solving at the forefront of instruction.

If you think your child might qualify for this class, please complete the form on the link provided here [Click Here for Survey](#) (no later than April 29, 2022). Final data will be compiled during the summer to prepare for fall schedules.

Please feel free to contact Mrs. Kaplan or me should you have any questions or concerns.

Sincerely,

Mrs. Christine Marcinkewicz
Principal
Cass Junior High School
